Annex to the letter dated 17 October 2007 from the Permanent Representative of Pakistan to the United Nations addressed to the Secretary-General

Statement by the Organization of the Islamic Conference Group on the decision of the Israeli Government to resume excavation work beneath the Holy Al-Aqsa Mosque Compound

The Organization of the Islamic Conference (OIC) Group strongly condemns the decision of the Israeli Government to resume excavation work beneath the Holy Al-Aqsa Mosque Compound and the demolition of the historic road connecting Bab Al-Maghariba with the Holy Al-Aqsa Mosque Compound, which are seriously undermining its foundation and threatening it with collapse.

The OIC Group reaffirms its grave concern over the nature and objective of the Israeli archaeological work at the Haram El Sharif, which could alter the outstanding universal cultural value of the Haram El Sharif and the old city of Jerusalem.

The OIC Group believes that such actions on the part of Israel have a negative impact on the current efforts to create the appropriate political environment between the Palestinian and Israeli sides to revive the peace process and to resume the final status negotiations.

The OIC Group demands that Israel fully comply with its legal obligations according to international law, particularly the Fourth Geneva Convention of 1949, which is applicable to all of the territories occupied by Israel since 1967, including East Jerusalem.

The OIC Group calls upon the international community, particularly the Security Council, to compel Israel, the occupying Power, to rescind its decision and to cease all such actions and measures aimed at the judaization of the Holy City of Al-Quds Al-Sharif and changing its legal status, character and demographic composition.

TURKISH CYPRIOTS

73. The Meeting reiterated its firm support for the just cause of the Muslim Turkish people of Cyprus and, within the context of the call made by the UN Secretary General in his Report of 28 May 2004 and of the previous OIC resolutions, reiterated its decision to put an end to the unjust isolation of the Turkish Cypriots and requested, once again, the Member States to closely associate with the Turkish Cypriots and to increase and expand their relations in all fields. Recalling the UN Comprehensive Settlement Plan aimed at establishing a new state of affairs in Cyprus in the form of a new bi-zonal partnership with two politically equal

constituent states, the Meeting acknowledged that neither side may claim authority or jurisdiction over the other and that the Greek Cypriots do not represent the Turkish Cypriots. The Meeting expressed its deep disappointment about the unwillingness on the part of the Greek Cypriot side to find a comprehensive settlement to the Cyprus issue on the basis of the UN plan. The Meeting reaffirmed its adherence to the provisions of Resolution 6/34-P on the Situation in Cyprus adopted at the Thirty-Fourth Session of the Islamic Conference of Foreign Ministers held in Islamabad on 15-17 May 2007, as well as the provisions of the previous OIC resolutions and the latest report of the Secretary General of the OIC on the situation in Cyprus contained in document ICFM/34-2007/POL/SG.REP.5.

SUDAN

74. The Meeting, while emphasizing its full solidarity with the Government and the people of the Republic of the Sudan, expressed its support to the efforts for national reconciliation, peace and lasting stability in the Republic of the Sudan, full respect of the sovereignty, unity and territorial integrity of the Sudan, and called upon the international community to further support these efforts and the reconstruction and development of the Country and meet the humanitarian needs of its people, including in Darfur.

75. The meeting took note of the positive developments in relation to Darfur, particularly UNSC Resolution 1769 on the AU-Un hybrid operation and the agreement to hold peace talks in Libya on 27 October 2007.

76. The Meeting demanded the participation of all rebel groups in these decisive and final talks and called upon the international community to take the necessary punitive measures against individuals or groups that reject participation in the peace talks or in any way undermine the peace process.

77. The Meeting strongly condemned the recent murderous rebel attack against AMIS personnel in Darfur and expressed its sympathy and condolences to the families, countries, governments and colleagues of those who lost their lives in this tragic incident.

78. The Meeting reiterated the call for the constitution of a Ministerial Committee on the Sudan in order to follow-up on the issue of providing financial contributions by Member States to support the development plans in the country and in the war-affected areas and draw up a timetable for these efforts according to the priorities proposed by the Government of Sudan. It further called upon international community and donors to honor their commitments pledged in the Oslo Conference for Reconstruction of the Sudan with a view to ensuring full and effective implementation of the Comprehensive Peace Agreement.

SOMALIA

79. The Meeting reaffirmed its respect for the sovereignty, territorial integrity, political independence and unity of Somalia, consistent with the purposes and principles of the Charter of the United Nations.

80. The Meeting welcomed the outcome of the recently concluded Somali National Reconciliation Congress (SNRC) in Somalia. The Meeting commended the signing ceremony of the agreement of the SNRC in Jeddah under the patronage of the Custodian of the Two Holy Mosques, King Abdullah Bin Abdulaziz Al-Saud and

expressed its full appreciation to the Kingdom for hosting H.E. Mr. Abdullahi Yusuf Ahmed, President of the Somali Republic and his delegation.

81. The Meeting underlined its appreciation for the efforts of the Ugandan Forces currently deployed in Mogadishu under AMISOM and Uganda's invaluable contribution to peace and stability in Somalia and condemned any hostility towards it. The Meeting called on Member States of the African Union to contribute troops for AMISOM, and on other States and partners to provide financial, technical and logistical support for this effort.

82. The Meeting expressed its grave concern regarding the recent pattern of attacks by extremist elements in Somalia, including the increased use of explosive devices, and condemned all attempts to use violence to undermine peace and stability in the country.

83. The Meeting emphasized the urgent need for a United Nations Peacekeeping force to be deployed in Somalia to contribute to peace and stability in the country and requested the Security Council to authorize such a United Nations Peacekeeping Force.

84. The Meeting also urged OIC Member States to provide troops and other assistance to the possible deployment of the United Nations Peace Keeping forces in Somalia in order to support peace and stability in the country.

85. The Meeting expressed its gratitude to all those donors who have supported the peace process in Somalia and encouraged donor countries, regional and sub-regional organizations to contribute to the reconstruction and rehabilitation of Somalia, in particular through the mechanism of the Rapid Assistance Programme towards disarmament and demobilization in the country.

86. The Meeting welcomed the Somali Government's commitment to draw up a roadmap for the remainder of the transitional period leading to multiparty, free and democratic elections in 2009 as set out in the Transitional Federal Charter.

KOSOVO

87. The Meeting recognized that the Kosovo issue has entered into a crucial phase. It also recognized Mr. Ahtisaari's efforts and other contributions and considered that the outcome in this regard would contribute to the maintenance of stability in Kosovo. The Meeting expressed its hope that the international community work together constructively on the issue of Kosovo, and called upon the UN Security Council to address, on equal footing, all other issues pertaining to the maintenance of international peace and security.

88. The Meeting supported the efforts of the US-EU-Russia Troika within the framework of the Contact Group, including the direct negotiations between the concerned parties in good faith. It supported the Troika's assessment that the status quo is not sustainable. It expressed its hope that the international community continues to work together constructively, and stressed the need to find a peaceful, realistic and lasting solution to this unique case where all Kosovars can live in peace, harmony and prosperity

HUMANITARIAN ACTIVITIES

89. The Meeting invited the OIC General Secretariat to pursue its humanitarian action in the Member States and to give increasing attention to protecting the most vulnerable social groups. In order to do so, the Meeting invited the OIC General Secretariat to strengthen its partnership relations with United Nations organs and agencies working in the humanitarian field in addition to the Non-Governmental Organizations (NGOs) of the Member States.

90. The Meeting called for the early establishment of a department for humanitarian affairs in the General Secretariat.

91. The Meeting expressed satisfaction with the major developmental and humanitarian activities of the OIC funds for Bosnia and Herzegovina, Afghanistan and Sierra Leone in furtherance of the spirit of solidarity and cooperation within the Ummah. It urged Member States, the Islamic Development Bank and the Islamic Solidarity Fund to support the Funds. The Meeting also recommended Member States to make good use of them when implementing their projects meant for the above-mentioned countries.

92. The Meeting expressed its satisfaction at the convening in Doha on 12-13 June 2007 of the 1st OIC International Donors Conference to consolidate food security in the Republic of Niger in order to enable it to consolidate and secure its strategic food reserves and develop its agriculture with a view to putting an end to the recurrent food shortages in this country. In this respect, the Meeting warmly congratulated the Government of the State of Qatar for having graciously hosted this Conference and thus contributing to the success of these important proceedings. The Meeting exhorted all participants therein to work for the concrete realization of the pledges and commitments made in order to enable this programme to get off the ground as soon as possible. The Meeting also appealed to the Member States and organizations to come to the rescue of the Sahelian countries and curb the recurrence of humanitarian disasters in the region.

93. The Meeting expressed its satisfaction with the remarkable success achieved by the OIC Alliance for the Safeguard of the Children Victims of Tsunami in Indonesia, which in two years has been able to assume the care of more than 19,000 orphans for a period of 15 years. In addition, the Meeting exhorted all the Member States as well as civil society to continue to lend their support to this important humanitarian project.

94. The Meeting expressed its satisfaction following the dispatch of a joint OIC-IDB mission to The Sudan in order to study and adopt practical modalities needed for urgent assistance to be extended to the Darfur states with a view of organizing the next Donors Conference for the development of Darfur.

UNILATERAL MEASURES

95. The Meeting reiterated its rejection of unilateral economic measures and attempts to impose unilateral economic sanctions on Member States. It expressed solidarity with Member States that are affected by such unilateral sanctions and requested that they be lifted immediately.

96. The Meeting reaffirmed, once again, Libya's legitimate right to reparations for the damages it sustained as a result of unlawful sanctions. The Meeting, reaffirming

the previous positions of the Organization of the Islamic Conference (OIC), deeply regretted the Verdict issued against the Libyan Citizen Abdelbassit Al-Megrahi, and demanded his release, since his illegal conviction was based on pure political motive as was confirmed by the United Nations Observers, Eminent International Lawyers and witnesses. In this respect, the Meeting called on the international community and human rights organizations to intensify pressure on the governments concerned in order to ensure a prompt release of the Libyan Citizen.

DISARMAMENT AND NON-PROLIFERATION

97. The Meeting expressed its concern over the current impasse on issues related to disarmament and non-proliferation and called for a renewed determination towards achieving a balanced consensus on nuclear disarmament and nuclear non-proliferation in all its aspects. The Meeting also emphasized the imperative of promoting multilateral diplomacy in resolving disarmament and non-proliferation concerns, and, in this context, underlined that treaty-based multilateral institutions established under the auspices of the United Nations are the sole legitimate bodies to verify and ensure compliance with relevant international agreements.

98. The Meeting reiterated the proposal on the convening of a special session of the United Nations General Assembly as soon as possible with a view to reaffirming guidelines, principles and the priority of nuclear disarmament set out in the First Special Session devoted to Disarmament, assessing its implementation and evolving additional guidelines and practical measures, taking into account the existing and emerging challenges in the area of Disarmament and non-Proliferation.

99. The Meeting noted with concern the growing trend among some States to seek bilateral deals in the area of civil nuclear cooperation, with States that do not have a comprehensive safeguards agreement with the IAEA. This is a manifestation of double standards and discrimination and is in contravention to the commitments and obligations under the NPT. The Meeting cautioned that such selective approaches, based on narrow commercial and strategic interests, would undermine the global nuclear disarmament and non-proliferation regime.

100. The Meeting, while noting the adoption of the United Nations Security Council resolutions 1540 of 28 April 2004 and 1673 of 27 April 2006, the scope of which remains limited to preventing the acquisition of weapons of mass destruction by non-state actors, reaffirmed that adoption of these resolutions represents temporary arrangement to fill a gap in international rules. It also reiterated that the Security Council can not assume legislative responsibilities in matters pertaining to non-proliferation and disarmament issues, since those States which seek to perpetuate the monopoly of nuclear weapons also wield the power of the veto in the Council. In this regard, the Meeting renewed its call for concluding a non-discriminatory and universally negotiated international treaty on the elimination of WMDs which should replace the temporary arrangements assumed by the Security Council under resolutions 1540 and 1673.

101. The Meeting while noting the on-going talks between Pakistan and India over conventional and nuclear confidence building measures welcomed the proposal by the Islamic Republic of Pakistan for a Strategic Restraint Regime in South Asia to promote strategic stability and security.

102. The Meeting welcomed the signing of the Treaty on a nuclear-weapon-free zone in Central Asia in Semipalatinsk on 8 September 2006 by the Ministers of Foreign Affairs of Kazakhstan, Kyrgyzstan, Tajikistan, Turkmenistan and Uzbekistan and considered this effort by five Central Asian Countries, which are all Member States of the OIC, as an effective contribution to strengthening regional and global peace and security.

103. The Meeting urged all parties directly concerned to consider seriously taking practical and urgent steps required for implementing the proposal to establish a nuclear-weapon-free zone in the region of the Middle East in accordance with the relevant resolutions of the United Nations, and warned against the dire consequences of the continuing rejection of Israel to accede to the Nuclear Non Proliferation Treaty (NPT) and to place promptly all its nuclear facilities under the full scope of the safeguards of the International Atomic Energy Agency (IAEA). In this regard, the Meeting supported the draft resolution submitted by the Syrian Arab Republic to the Security Council on 29 December 2003 regarding the establishment of a zone free from nuclear weapons and other weapons of mass destruction in the Middle East and called upon the Security Council to act positively on the draft to achieve that lofty goal in the region.

104. The Meeting reaffirmed the need for total nuclear disarmament and for the elimination of nuclear weapons and other weapons of mass destruction. It called on Member States to actively take part in all related international initiatives and conferences. It called on all Member States to ratify fair and non-discriminatory international conventions and to encourage the establishment of nuclear weapon-free zones. It strongly condemned Israel for developing nuclear weapons and persistently refusing to allow the International Atomic Energy Agency access to its nuclear facilities in violation of all international agreements on nuclear proliferation.

105. The Meeting strongly condemned the statement made by the Prime Minister of Israel on 11 December 2006, in his interview with a German TV channel, in which he publicly admitted the possession of nuclear weapons by Israel.

106. The Meeting, while reaffirming the inalienable rights of Member States, including Iran, without discrimination, to develop research, production and use of nuclear energy for peaceful purposes, as enshrined in the NPT and the Statute of the IAEA, called and supported firmly the settlement of all outstanding issues exclusively by peaceful means and through negotiations, without preconditions and in the framework of the IAEA and in accordance with the NPT and the statute of the IAEA. It expressed concern over the pressure being mounted on Iran and its potential consequences for peace and security in and outside the region, and expressed its support and solidarity with that country. The Meeting also appreciated the cooperation of the Islamic Republic of Iran with the IAEA.

TERRORISM

107. Recalling Section VI of the Ten Year Program of Action adopted at the Third Extraordinary Session of the Islamic Summit Conference held in Makkah Al Mukarramah in December 2005, and Resolution 12/33-P adopted at the 33rd Session of the Islamic Conference of Foreign Ministers held in Baku in June 2006, the Meeting emphasized that terrorism completely contradicts the peaceful nature of the teachings of Islam, which urge tolerance, mercy and non-violence. It also

condemned any connection between terrorism and any race, religion and culture. It renewed the call for an international conference under the auspices of the United Nations to define terrorism and to distinguish it from the legitimate struggle of people under colonial or alien domination and foreign occupation for self-determination in accordance with the United Nations Charter and international law. It also called for a high-level Meeting of the United Nations General Assembly on terrorism. It reiterated its welcome and support for the resolution issued by the International Conference on Combating Terrorism, which was held in Riyadh on 5-8 February 2005, relating to the establishment of an International Counter-Terrorism Center under the aegis of the United Nations, with a view to immediately exchange information as well as for cooperation and coordination among Member States in order to strengthen efforts to combat this dangerous phenomenon.

108. The Meeting emphasized that terrorism continues to pose a threat to international peace, security and stability. It does not have any justification and should be condemned unreservedly. Terrorism has no particular religion, race, ethnic origin, nationality or a geographic region. In this vein, any attempt to associate terrorism with any religion, especially with Islam would serve the interests of terrorists. It is not possible to combat terrorism effectively without international solidarity and cooperation. The international community should therefore agree to a common and consistent approach in identifying, defining, condemning, isolating and punishing all terrorists and their supports. Due to the transnational nature of terrorism, the efforts to fight against it should be carried out on a global scale. United Nations is the main forum to promote international cooperation against terrorism. Full compliance with the provisions of the UN Security Council resolutions and international conventions on the fight against terrorism is vitally important. Moreover, the Meeting rejected politically motivated attempts to unjustly associate Islam or any Islamic country with terrorism.

109. The Meeting took note of the adoption of the United Nations Global Counter-Terrorism Strategy and called for a review mechanism to provide a comprehensive Strategy which duly takes into account the root causes of terrorism and draw distinction between terrorism and the struggle for the right of self determination by the people under foreign occupation and colonial or alien domination. The Meeting recognized that foreign occupation, state terrorism, political and economic injustice and denial of right of self-determination to people are the main root causes of terrorism. The Meeting recognized that a time-structured approach, envisaging short, medium, and long term objectives, to the implementation of the strategy could best accommodate the contentious issues related to the strategy.

110. The Meeting also reaffirmed its determination to make every effort to reach an agreement on and conclude a comprehensive convention on international terrorism, including by resolving the outstanding issues related to the legal definition of terrorism and scope of the acts covered by the convention, so that it can serve as an effective instrument to counter terrorism.

111. The Meeting took note of the statement of the President of the Security Council reference S/PRST/2007/26 condemning the terrorist attack that took place in Marib, Republic of Yemen, on 2 July 2007, and expressed its deepest sympathy and condolences to the victims of these attacks and their families, and to the peoples and Governments of the Republic of Yemen and the Kingdom of Spain.

112. The Meeting also took note of the Statements of the President of the Security Council S/PRST/2007/10 and S/PRST/2007/32, condemning the terrorist attacks that took place in Algeria in April and September 2007 respectively, and expresses its deepest sympathy and condolences to the victims of these attacks and their families, and to the people and Government of Algeria.

113. The Meeting emphasized the importance to address the use of internet by terrorists and requested all countries to take the necessary measures to combat such use.

114. The Meeting expressed its deep appreciation and warmest thanks to his Excellency President Zine El Abidine Ben Ali, President of the Tunisian Republic, for his decision to host under his patronage the "International Conference on Terrorism: Dimensions, Threats and Countermeasures" in Tunis on 15-17 November 2007.

UN REFORM

115. The Meeting supported a comprehensive reform of the United Nations Organization to respond to the challenges facing humanity. The Meeting reiterated the need for evolving common perceptions and agreed approaches to address both the new and existing threats to international peace and security in the context of multilateralism. The Meeting also reiterated the OIC's stance in support of the principle of the United Nations reform, including the expansion of the Security Council's membership, in accordance with the relevant UNGA resolutions, and taking into consideration the principles of sovereign equality of all States and the need to ensure equitable geographic distribution.

116. The Meeting emphasized that the question of reform and expansion of the UN Security Council continues to be the primary preoccupation of the UN membership, including all OIC Member States for whom this is a matter of direct and vital interest. It, therefore, called on its Member States to actively and constructively take part in the UN reform process in accordance with the relevant declarations, statements and resolutions issued by the OIC. It emphasized the importance of a comprehensive reform enhancing the transparency, accountability, representativeness and democratization of the Security Council through the improvement of its working methods and legitimacy and effectiveness of its decision-making process. The Meeting reaffirmed its principled position that any reform of the Security Council must ensure adequate representation of the OIC Member States in any category of membership of the expanded Security Council.

117. The Meeting highlighted that in the current era of regional blocks, the OIC is the largest institution after the United Nations, which brings together one-fifth of the world population. The OIC's demand for adequate representation in the Security Council is in keeping with the significant demographic and political weight of the OIC Member States, which bears particular importance, not only from the perspective of increased efficiency, but also to ensure the representation of the main forms of civilization in the Security Council. It therefore reaffirmed its decision that any reform proposal which neglects the adequate representation of the Islamic Ummah in any category of membership in an extended Security Council will not be acceptable to the Islamic World.

118. The Meeting also stressed an increased role of regional groups in determining their representation on the Council. It also recognized that there was wide support for increasing the number of non-permanent members in the Security Council.

119. The Meeting took note of the progress made in the discussions on Security Council reform during the 61st Session of the General Assembly, guided by the President of the Assembly. The Meeting underlined that the reform of the Security Council must be achieved with the broadest possible agreement. In this context, and keeping in view the continuing divergent positions among UN Member States on important aspects of Security Council reform, the Meeting stressed the importance of further constructive consultations between all UN Member States to agree on a common basis and framework for further progress without imposing any time limits or pushing divisive votes. In that regard, it called for building upon the points of convergence such as the need to enlarge the Council, to increase the representation of developing countries, and to improve the working methods and transparency of the Council's work.

120. The Meeting rejected any efforts to abuse the Security Council as a tool to pursue certain political and national agendas and stressed on the importance of non-selectivity and impartiality in the work of the Council.

121. The Meeting took note of the important contribution being made by the United Nations Peace Building Commission (PBC) as the intergovernmental advisory body to address the special needs of countries emerging from conflict and to assist them in laying the foundation for sustainable development. It expressed its profound appreciation for the active and constructive participation of the OIC Member States that are members of the Commission, namely Bangladesh, Egypt, Guinea-Bissau, Indonesia, Nigeria and Pakistan. It welcomed the invitation to the Organization of the Islamic Conference to participate in all Meetings of the Commission and expressed the continued engagement and support of the Organization to the work of the Commission. The Meeting agreed on the importance of the OIC General Secretariat to contribute to the Peace-building Fund, and in this regard, it requested the OIC Member States to consider providing financial contributions to the OIC Secretary General such that they may be transferred as the Organization's contribution to the Fund.

HUMAN RIGHTS AND FREEDOMS

122. The Meeting strongly condemned the publication of offensive, provocative, irresponsible and blasphemous caricatures of the Prophet (PBUH) in the print and electronic media of some Western countries under the pretext of freedom of expression and press freedom. It stressed that the right to freedom of expression should be exercised with responsibility and in accordance with the law.

123. The Meeting expressed its deep concern over the growing phenomenon of intolerance and discrimination against Muslim communities in non-OIC Member States, particularly in the West, including the promulgation and oppressive application of restrictive laws and other measures. It emphasized that all Islamophobic practices constitute an infringement of human dignity and contradict the provisions of the international human rights documents.

124. The Meeting emphasized the need to develop, at the United Nations, including the Human Rights Council, a legally binding international instrument to promote

respect for all religions and cultural values and prevent intolerance, discrimination and the instigation of hatred against any group or followers of any religion.

125. The Meeting expressed its appreciation and full satisfaction for the laudable collective efforts of the OIC Group in Geneva to coordinate and harmonize the positions of the OIC Member States within the Human Rights Council; to deploy collective and intensive efforts to enable the HRC to take concrete measures for the respect and protection of human rights in the Occupied Palestinian Territory, including East Jerusalem and in Lebanon; to place two crucial issues for the OIC namely the situation in the Occupied Palestinian Territory, including East Jerusalem, and the issue of incitement to racial and religious hatred and the promotion of tolerance at the top of the permanent agenda of the Human Rights Council.

126. The Meeting expressed its appreciation for the active participation of Algeria, Azerbaijan, Bangladesh, Cameroon, Djibouti, Egypt, Gabon, Indonesia, Jordan, Malaysia, Mali, Morocco, Nigeria, Pakistan, Qatar, Saudi Arabia, Senegal and Tunisia in decision-making and institutional building process of the United Nations Human Rights Council and valuable efforts of the OIC Group in Geneva in taking a common position within the Council on matters of special interest to the OIC Member States.

127. The Meeting expressed its opposition to the practice of submitting country-specific resolutions on human rights situations which are selectively targeting developing and Islamic countries. It reaffirmed that this practice is one of the main reasons that transforms the work of human rights bodies into an extremely political exercise rather than contributing to the advancement of the cause of human rights.

128. The Meeting welcomed the progress made in the elaboration of modalities of the Universal Periodic Review within the framework of institutional building of the Human Rights Council, and looks forward to its early functioning as an innovative cooperative mechanism to promote the universality, interdependence, indivisibility and interrelatedness of all human rights and to ensure universal coverage and equal treatment of all States.

129. The Meeting stressed the need to find fair and just solutions to the problems facing Muslim minorities in the world, including in particular denying them the right to exercise their political, civil and cultural rights, the gross human rights violations which at times amount to ethnic cleansing, in addition to religious and sectarian segregation, socio-economic backwardness, and exclusion from effective political activity in their countries.

130. The Meeting agreed that the General Assembly representing universal membership, in accordance with the United Nations Charter must be enabled to exercise its authority in addressing all major issues, including peace and security, development and human rights. The Meeting further called for halting and reversing the encroachment by the Security Council on the Assembly's prerogatives and functions.

131. The Meeting reiterated its deep concern over the conditions of the Muslim minority in India. It urged the Government of India to take effective and immediate measures to end all violence and policies of discrimination against Muslims. The Meeting also reiterated its mandate to the General Secretariat to monitor the situation of Muslims in India and to collect further information on the challenges

and difficulties that they are facing politically, socially and culturally, and to submit a report in this regard to the next ICFM.

DEVELOPMENT ISSUES

132. The Meeting, recognizing the central role of the UN Economic and Social Council (ECOSOC) in the promotion of socio-economic development, called for strengthening its role as an effective policy dialogue platform and to use its mechanisms for monitoring the implementation of the internationally agreed development goals, including the MDGs. In this context, the Meeting welcomed the first Annual Ministerial Review (AMR) and the launch of the Development Cooperation Forum (DCF) under the ECOSOC to further strengthen the leading role of this UN body on economic policy-making.

133. The Meeting took note of the final documents adopted in the second phase of the World Summit on the Information Society, held in Tunisia from 16 through 18 November 2005, following the first phase held in Geneva in December 2003, and emphasized the need for building on the commitments made in Geneva and Tunis by focusing on efforts aimed at bridging the gap between developing countries and industrial countries. It called on the Member States to focus on the follow-up of the Geneva and Tunis decisions, including by participating actively in the Internet Governance Forum.

134. The Meeting reaffirmed the need to strengthen the role and capacity of the United Nations system to assist developing countries' efforts to achieve the internationally-agreed development goals, particularly goal number 8 of the Millennium Development Goals which calls for developing a Global Partnership for Development and substantial increase in development assistance to achieve these goals.

135. The Meeting emphasized the need for the promotion of the new global economic order aimed at reversing the growing disparity between the rich and poor, both among and within countries through, inter alia, the eradication of poverty, the promotion of sustainable development, and the realization of the just aspiration of all peoples. In this regard, the Meeting also called for special attention to African Development issues and stressed the support of the international community to the NEPAD programme.

136. The Meeting reiterated that the pursuance of sustainable development should be the priority of all countries through the implementation of all internationally-agreed development goals and objectives at all levels, including those contained in the Johannesburg Plan of Implementation for the World Summit on Sustainable Development and the Millennium Declaration, and the Brussels Programme of Action for LDCs, and the Almaty Programme of Action for Landlocked Developing Countries. The Meeting also stressed that the multilateral trading and financial systems should be open, equitable, rule-based, non-discriminatory and sensitive to Least Developed Countries (LDCs) situation. In this context, it urged the international community to facilitate the accession of those OIC Member States that seek to join the World Trade Organization (WTO) on fair terms, irrespective of political considerations.

137. The Meeting urged the developed countries that have not done so, to materialize the target of 0.7% of GNP for official development assistance set for end

of 2007, in order to enable the developing countries to meet the Millennium Development Goals (MDGs), as set by 2015. In this connection particular attention should be given to the implementation of the Monterrey Declaration.

138. The Meeting welcomed the launch of the OIC Poverty Alleviation Fund with an initial budget of 1.57 billion US Dollars aimed at poverty alleviation in Islamic countries with a particular focus on the Least Developed Countries (LDCs).

139. The Meeting called on United Nations Member States for the full implementation of the resolutions and the decisions of the United Nations Educational, Scientific and Cultural Organization (UNESCO) concerning the return of cultural properties to the peoples who were or still are under colonial rule or foreign occupation. It also stressed the need for UNESCO to identify the stolen or illegally exported cultural properties in accordance with the relevant conventions on the subject. It emphasized the need to expedite the process of returning these properties to their countries of origin, in compliance with the resolutions of the United Nations General Assembly. It further emphasized the right of the Islamic countries to maintain and conserve their national heritage, as it constitutes the foundation of the cultural identity of these countries.

140. The Meeting welcomed the outcome of the First OIC Anti-Corruption and Enhancing Integrity Forum held from 28-30 August 2006 in Kuala Lumpur and the follow-up Meeting of the Ad-Hoc Task Force held from 9 to 11 January 2007 also in Kuala Lumpur that inter alia examined the mechanisms to increase cooperation among Member States to address elements of corruption and agreed to establish a Secretariat in Kuala Lumpur to coordinate this effort.

141. The Meeting expressed its appreciation for Malaysia's hosting of the Islamic Conference of Health Ministers (12 to 15 June 2007) which is in line with the OIC Ten-Year Programme of Action that focuses on issues relating to vaccines for preventable diseases and its production in OIC member countries.

142. The Meeting expressed its satisfaction with the outcome of the 3rd annual World Islamic Economic Forum (WIEF) held from 27 to 29 May 2007 in Kuala Lumpur that aims at strengthening business collaboration among Muslim businessmen throughout the world.

143. The Meeting expressed its appreciation for the efforts of the OIC General Secretariat to ensure an effective presence of the Organization on the international scene, and in international fora in particular in total collaboration and coordination with the Chairmen of the Contact Groups and the OIC Ambassadorial groups in New York, Geneva, Paris (UNESCO) and Vienna.

SUPPORT TO OIC MEMBER STATES' CANDIDATES AND PERMANENT OBSERVER MISSION OF THE OIC:

144. The Meeting reaffirmed the principled position of the OIC that where there are any OIC Member States candidates for senior United Nations positions, the OIC will support them.

145. The Meeting expressed appreciation and satisfaction for the performance of the Permanent Observer Mission of the OIC to the United Nations in New York in discharging its duties in conformity with the resolutions of the OIC Summit and Ministerial Conferences.

146. The Meeting noted with deep concern the continued difficulties faced by the Permanent Observer Mission of the Organization of the Islamic Conference (OIC) to the UN in New York due to the absence of diplomatic status of the Mission. Recognizing the central role of the Permanent Observer Mission to the United Nations in New York, the Meeting urged the government of the United States of America, as the host country, to extend full diplomatic status to the Mission. The Meeting called for the establishment of Ambassadorial Level Committee in New York comprising the Troikas of the OIC Summit and the ICFM to pursue this issue with the Government of the United States.

Rationalization of the work of the Annual Coordination Meeting

147. The Meeting took note of the interventions made by the various delegations on the need to rationalize and improve the work of the Annual Coordination Meeting of the Foreign Ministers of the Member States of the OIC in New York. In this regard, it decided to, henceforth, make this important occasion a forum for interaction and exchange of ideas on issues of common interest to the Ummah instead of a mere occasion for long solemn declarations as is currently the case. It also called for greater coordination between the OIC General Secretariat and the OIC Group in New York.

148. The Meeting adopted the reports issued by:

I- The Six Member Group on Palestine (Annex-I).

II- The OIC Contact Group on Jammu and Kashmir (Annex-II).

III- The OIC Contact Group on Somalia (Annex – III).)

IV- The OIC Contact Group on Sierra Leone (Annex-IV).

V- The OIC Contact Group on Iraq (Annex-V).

Lebanese Government position paper on the implementation of Security Council resolution 1701 (2006)

20 October 2007

In anticipation of the periodic review of the Secretary-General on the implementation of Security Council resolution 1701 (2006), the Lebanese position on the outstanding key elements in the resolution is set out below.

1. Lebanon remains entirely committed to the full implementation of resolution 1701 (2006) and abides by its obligations under it.

2. The cooperation between the Lebanese Armed Forces (LAF) and the United Nations Interim Force in Lebanon (UNIFIL) continues to be strengthened through coordinated control and patrolling along the Litani River and in UNIFIL's area of operations, where the situation remains relatively calm. However, since the previous review of the resolution, LAF recorded that the Israeli forces have persistently committed 290 air, 24 maritime and 52 land violations in just over three months. (Attached is the list of violations as provided by LAF covering the period between 14 June and 10 October 2007.) These violations constitute repeated breaches not only of the Blue Line and of Security Council resolution 1701 (2006), but also of other relevant Security Council resolutions by which the international community affirmed and reaffirmed its strong commitment to the sovereignty and territorial integrity of Lebanon and called upon all parties to respect them. We reiterate that violations of our territorial sovereignty cannot be justified under any pretext, including the enforcement of the arms embargo as per Security Council resolution 1701 (2006). The resolution did not commission Israel with this task. Furthermore, Israel should abide by its obligations under resolution 1701 (2006) and show respect for Lebanese sovereignty and for the international community.

3. Tripartite meetings held periodically remain the appropriate venue to address the issue of marking the Blue Line and dealing with all emerging tensions caused by unilateral Israeli actions on Lebanese territory. In this context, we reaffirm that the internationally recognized borders of Lebanon in the south are as referred to in the 1949 Armistice Agreement, and as reiterated in paragraph 5 of resolution 1701 (2006).

4. We welcome the fact that LAF and UNIFIL on one side, and UNIFIL and the Israeli army on the other side, agreed to a series of practical measures to mark the Blue Line using coordinates established by the United Nations in 2000. The territorial implementation of that agreement has begun on the Lebanese side, with cooperation between UNIFIL and LAF, and we look forward to the speedy continuation of this process.

5. Israel continues to occupy the northern part of the village of Ghajar in breach of the Blue Line and of resolution 1701 (2006). Our position remains clear: Israel should withdraw from the Lebanese part of Ghajar without any further delay and without any prior conditions, as per its obligation under that resolution. UNIFIL will

then move into the liberated area in anticipation of the deployment of LAF there, as the latter deems appropriate.

6. The 15-week battle in Nahr el-Bared, during which LAF fought and succeeded in uprooting the Fatah al-Islam terrorist group, confirmed that the borders are porous and that it is a matter of national security interest for Lebanon to secure its border, in conformity with relevant Security Council resolutions, in order to prevent any infiltration of personnel or smuggling of weapons aimed at destabilizing Lebanon. In this context, the Lebanese Government welcomed the recommendations of the Lebanon Independent Border Assessment Team on that matter; however, it reiterates that the control of the northern and eastern borders is a responsibility shared by both Syria and Lebanon, as per paragraph 15 of resolution 1701 (2006). It therefore looks forward to establishing cooperation with its Syrian counterparts, in particular at the operational level, in a joint effort to secure the border and prevent illegal cross-border activities. The competent Lebanese authorities adopted an integrated strategy to enhance their capabilities in controlling the border from the Lebanese side and are maintaining a high level of vigilance with regard to illegal movements of arms and materiel; further technical and logistical support is needed to enhance their capabilities in the fulfilment of their tasks. The German assistance provided through the pilot project in the north continues to be helpful in that regard. In the same spirit, the Syrian Government will have to take tangible steps to prove it is cooperating in controlling its border to prevent infiltration into Lebanon of arms and personnel. The circumstances of Fatah al-Islam's infiltration into Lebanon, as set out in the Lebanese Prime Minister's letter to the Secretary-General of 8 October 2007, further underscores this point. In this context, the Lebanese Government looks forward to the positive outcome of initiatives launched by the Arab League and the European Union, including technical assistance and effective and reliable monitoring support when needed. Furthermore, we request again that any information in the possession of any third country about illegal smuggling of arms or persons be shared with us directly, if possible, or through the United Nations.

7. On the question of the Lebanese detainees in Israeli prisons, we continue to insist that their detention is a breach of the basic rules of international law and that those prisoners be released immediately and unconditionally. As for the Israeli soldiers abducted on 12 July 2006, the Lebanese Government reiterates that it has no knowledge of their status or whereabouts and remains ready to cooperate with the Secretary-General, who is mediating on this issue, whenever he deems it appropriate to do so. In this context, the Lebanese Government notes that Israel has been engaged in indirect negotiations with Hizbullah through the United Nations appointed mediator, which led to a first exchange of detainees and bodies on 15 October 2007, while at the same time continuing to make allegations that the Lebanese Government is in breach of resolution 1701 (2006) regarding the release of the two abducted Israeli soldiers.

8. The Israeli army pounded Lebanon with millions of cluster bombs. The 2006 annual report of the United Nations clearly specifies that more than 1 million remain unexploded and are thus tantamount to anti-personnel landmines, claiming lives on a daily basis. The latest victim — but not the last — was 6-year-old Ali Dakdouk, whose first day at school became his last, as a result of this horrible and lethal type of ordnance. We request that Israel submit to the United Nations, without any further delay, the maps which indicate where it dropped the cluster bombs. Those

cluster bombs remain a continuing threat to the civilian population in the south and represent a humanitarian crime for which Israel bears responsibility and for which it will have to pay compensation to Lebanon.

9. Regarding landmines, Israel claims to have submitted all maps relating to landmines laid in Lebanon prior to its withdrawal in 2000. It has been agreed in the tripartite meetings that any further discoveries of landmines will be brought to the attention of this forum and that the Israeli army will submit related maps in its possession.

10. Israeli withdrawal from the Shebaa farms remains a yet-to-be-completed element of Security Council resolution 425 (1978). We praise the progress achieved by the senior cartographer appointed to determine the territory of those farms and we look forward to seeing the results of his work in the forthcoming report, which will enable the Secretary-General to start a long-overdue political process based on our suggestion in the seven-point plan that the area be placed under United Nations custodianship after the withdrawal of the Israeli occupying forces, until such time as it is possible to demarcate the border between Lebanon and Syria. Progress on the Shebaa farms issue is not conditional on progress on other elements of resolution 1701 (2006), as per paragraph 10 of that resolution, which requested the Secretary-General to develop proposals to deal with the Shebaa farms area. Furthermore, the continuing occupation of the Shebaa farms hinders the extension of the authority of the Lebanese State throughout its territory as called for by the international community and stands as a direct affront to the resolve of the Lebanese Government to be the sole guarantor of Lebanese sovereignty.

11. We consider that Security Council resolution 1773 (2007), adopted on 24 August, was a strong political message regarding the continued commitment of the international community to the role of UNIFIL and the fulfilment of its mandate in the south of Lebanon, especially given the fact that it has been the target of cowardly terrorist attacks.

12. We consider that, based on the important measures taken by the Lebanese Government and LAF to extend their authority throughout Lebanese territory and to guarantee peace and stability, it is essential to move from the precarious situation of a cessation of hostilities to a permanent ceasefire.

13. On the economic front, we reiterate the call upon the international community in resolution 1701 (2006) to consider further assistance for the reconstruction and development of Lebanon. In that context, we urge the States that participated in the Stockholm and Paris III conferences to fulfil their pledges.

Report of the Secretary-General*

Summary

The General Assembly, in its resolution 61/273, called upon the Secretary-General to include, in his report to the sixty-second session, solutions for placing the financial situation of the International Research and Training Institute for the Advancement of Women (INSTRAW) on a more stable basis without recourse to regular budget funding, in line with the statute of the Institute. In addition, in paragraph 2 of his report on the future operations of the Institute (A/62/173), the Secretary-General informed the General Assembly of his intention to submit a separate report on the financial situation of INSTRAW to the General Assembly at its sixty-second session. The present report addresses the two issues.

* The submission of the present report has been timed to reflect the latest available information for assessing the financial situation of the International Research and Training Institute for the Advancement of Women.

I. Introduction

1. The General Assembly in its resolution 61/273 on the financial situation of the International Research and Training Institute for the Advancement of Women (INSTRAW), called upon the Secretary-General to include, in his report to the General Assembly at its sixty-second session, solutions for placing the financial situation of the Institute on a more stable basis without recourse to regular budget funding, in line with the statute of the Institute. Moreover, in his report on the financial operations of the Institute (A/62/173, para. 2), the Secretary-General informed the General Assembly of his intention to submit a separate report on the financial situation of INSTRAW to the General Assembly at its sixty-second session. The present report is therefore in response to the request in part II, paragraph 7 of the resolution.

2. By its resolution 60/247, the General Assembly appropriated an amount of $1,042,200 for the biennium 2006-2007, to be used for INSTRAW should there be a shortage of voluntary contributions for its functioning in 2006. In addition, the General Assembly in its decision 61/555 decided, on an exceptional basis, to authorize the Secretary-General to enter into commitments in an amount up to $190,000, subject to full reimbursement for the financing of INSTRAW in 2007 and in resolution 61/273, authorized the Secretary-General to enter into commitments up to $367,800, subject to full reimbursement, pending receipt of voluntary contributions. Accordingly, the total resources in commitment authority authorized by the General Assembly amounts to $557,800, subject to full reimbursement, pending the receipt of voluntary contributions.

II. Financial situation of the Institute, 2006-2007

A. Trust fund for core activities

3. In the months following the adoption of General Assembly resolution 61/273 on 29 June 2007, the level of voluntary contributions received during the biennium 2006-2007 through 30 September 2007 for INSTRAW core activities was at $515,300. It is expected that an amount of $519,900 will be received before the end of 2007, representing voluntary contributions as well as a proportion of programme support costs generated from the INSTRAW Trust Fund for project activities which would provide relevant resources for the operations of the Institute. It will be recalled that programme support costs are generated from expenditure of trust funds and provide for backstopping for extrabudgetary operations without subsidization from assessed resources.

4. As can be seen in table 1, the total projected income for the biennium 2006-2007 of $3,491,900 is more than sufficient to cover the projected expenditures of $2,648,300, including the reserve of $200,000, for the biennium 2006-2007. With a projected balance as at 31 December 2007 of $643,600, INSTRAW will be able to reimburse in full the commitment authority totalling $557,800 authorized by the General Assembly for the biennium 2006-2007. The projected closing balance of $85,800, following the full reimbursement of the commitment authority, will be carried over into the financial year beginning 1 January 2008.

5. Table 2 details the expenditures incurred by the Institute for the period 1 January-31 December 2006, amounting to $1,204,900 under its core activities, including the cost of the current nine staff of the Institute (1 D-2, 1 P-3, 2 P-2/1 and 5 General Service). During the period 1 January to 31 July 2007, the Institute incurred further expenditures of $889,100 (rounded) and has projected that for the period 1 August to 31 December 2007, the expenditures would amount to $554,300. The projected total expenditure for 2007 of $1,443,400 is based on the revised estimated requirements of the Institute for the year 2007 as reported to the Fifth Committee in June 2007 during its review of the Secretary-General's report (A/61/897). Accordingly, the total projected expenditures for the biennium 2006-2007 will amount to $2,648,300, excluding, in accordance with established procedures, the $200,000 reserve to cover eventual final expenditures and commitments of INSTRAW.

B. INSTRAW Trust Fund for project activities

6. Voluntary contributions to the INSTRAW Trust Fund for project activities had a more positive experience with contributions more forthcoming. As reflected in the report of the Secretary-General (A/61/897), the positive situation continues to prevail. The projected closing balance of the Trust Fund, as at 31 December 2007, is estimated at $625,800, as detailed in table 3. The projected closing balance of $625,800 will be carried forward into the financial year beginning 1 January 2008.

III. Financial situation of the Institute for 2008

A. Trust Fund for core activities

7. At its third resumed fourth session the Executive Board of INSTRAW approved the revised workplan and operational budget for 2008 estimated at $1,541,000 (rounded), as outlined in table 4 below. The projected level of expenditures for its core activities in 2008 represent an increase of $98,000 over the 2007 estimated expenditures owing largely to anticipated increases in staff costs and operating expenses. The projected financial situation of the INSTRAW Trust Fund for core activities at the start of 2008 is estimated at $85,800 as outlined in table 1 above.

8. INSTRAW has informed its Executive Board that it projects that an estimated $1,485,500 (rounded) will be generated to finance its core activities in 2008, as reflected in annex I (Proposal 2) to its report (INSTRAW/EB/2007/R.7/Rev.1). The projection is based on past funding patterns, verbal expressions of contributions by donors, projected contributions from new sources, such as the private sector, and miscellaneous income, i.e., reimbursement from the United Nations Stabilization Mission in Haiti for administrative support services rendered and the share of the earnings from programme support cost. Although the income projections of INSTRAW are optimistic, INSTRAW and its Executive Board have been made aware of the need to closely monitor the receipt of these projected contributions

owing to its unpredictability and in particular the need for timeliness of payment. In this connection, the Executive Board approved its medium-term resource mobilization strategy for 2008-2009 with the aim of securing the needed funds for implementation of the core activities of the Institute. The estimates are also based on the projection that INSTRAW will implement project activities estimated at $3,369,100 in 2008, against which its share of programme support for backstopping such activities would amount to $218,992.

9. The Executive Board, at its third resumed fourth session, fully cognizant that the projected level of contributions of $1,485,500 (rounded) is slightly less than the Institute's operational budget of $1,541,000 (rounded) and that voluntary contributions are unpredictable, approved the operational budget subject to the level of contributions received.

10. Based on a straight line projection, it is estimated that INSTRAW will require an estimated $128,000 per month to meet its expenditures of $1,541,000 estimated for 2008 as reflected in table 4. It is estimated that sufficient resources will be available to meet INSTRAW expenditures for the first quarter of 2008 based on an estimated beginning balance of $85,800 and assured contributions of $423,000 in its Trust Fund for core activities as at 1 January 2008. The Institute has been urged to increase its efforts in fund-raising and to ensure that pledges are paid in a timely manner to ensure that sufficient funds will be available for the continued operation of the Institute during 2008.

B. Trust Fund for project activities

11. The projected balance in the fund as at 31 December 2007 would amount to $625,800 as reflected in table 3 above. Based on projects planned for the period 2008-2011, as detailed in annex II to the present report, the Institute estimates that approximately $3.4 million would be available in 2008 for project activities.

IV. Securing sustained resources: resource mobilization plan 2008

12. The Executive Board, at its second resumed fourth session held on 4 and 5 September 2007, seeking to secure sustained resources to fund the Institute's core activities, approved the medium-term resource mobilization strategy 2008-2009 (see INSTRAW/EB/2007/R.11/Rev.1). The strategy seeks to secure the funds required for implementing the Institute's annual core budget according to the following percentages: 75 per cent from Member States and 25 per cent from the private sector. In this regard, the strategy includes a number of actions aimed at securing voluntary contributions from Member States and the private sector. The strategy also includes actions aimed at developing strategic partnerships for cost-effective practices and institutional development for capacity-building. It is expected that the results will place the financial situation of the Institute on a more stable footing.

13. Recent actions undertaken by INSTRAW aimed at increasing contributions from Member States include a communication to Member States from the President of the Executive Board to apprise them of the achievements and challenges of INSTRAW and encouraging them to consider making voluntary contributions to the core budget; special fund-raising efforts undertaken to secure contributions for the core budget; and action by the Executive Board of INSTRAW at its third resumed fourth session by which it has requested various actions by the Secretary-General to assist with the financing of the Institute for 2008 and beyond. In response to the request of the General Assembly to offer solutions for placing the financial situation of the Institute on a more stable basis without recourse to the regular budget funding, in line with the statute of the Institute, the Executive Board has decided that:

(a) The Member States be called upon to provide an associate expert for coordinating and implementing activities in Africa;

(b) The Secretary-General be requested to send communications to Member States encouraging them to make voluntary contributions to INSTRAW in line with Economic and Social Council resolution 2007/37;

(c) The Secretary-General be requested to support INSTRAW through convening meetings with a small group of important donors and requesting their support to INSTRAW.

14. Another channel for fund-raising for the Institute being pursued, to facilitate fund-raising for its core budget directly from the private sector and individual contributors, is the agreement between INSTRAW, the United Nations Foundation and the United Nations Fund for International Partnerships, recently opened to the public in the United Nations Foundation website. This agreement includes a special donation page for INSTRAW on the United Nations Foundation website. Within the

first month of operation of this vehicle, an anonymous donation of $100,000 was received. It is anticipated that similar contributions would be received through this mechanism. In addition, the Director has undertaken meetings with representatives of private sector entities in order to apprise them of the opportunity to support INSTRAW activities and of the achievements and challenges of INSTRAW and to encourage them to consider making voluntary contributions to its core activities.

15. Through collaboration with United Nations entities and other partners, including civil society organizations, INSTRAW strives to build strategic partnerships for cost-effective practices. In the past, the Institute has received in-kind contributions, which have assisted in reducing the Institute's costs for core activities. These strategic partnerships with United Nations and other entities also contribute to increasing coordination and collaboration while strengthening the implementation of its programme of work. It is foreseen that in-kind contributions to INSTRAW will continue at the same rate in the future.

V. Action required of the General Assembly

16. The General Assembly may wish therefore: (a) to take note of the present report of the Secretary-General; and (b) to reiterate the appeal in its resolution 61/273 to Member States, as a matter of urgency, to contribute voluntary funds in support of the Institute and to honour existing pledges in a timely manner.
